VIDHYAN JHA

Full Stack Developer

+919373636822 vidhyanjha12345@gmail.com LinkedIn GitHub Website Pune, India

SKILLS

Programming Languages :	Python, Java, C, C++, SQL
Frameworks & Libraries :	Django, React, Tailwind CSS, RestAPI
Tools :	GitHub, Git, Docker
Databases :	MySQL, SQLite, MongoDB

PROFESSIONAL SUMMARY

Entry-Level Full Stack Developer with hands-on experience in building dynamic web applications using **Python**, **Django**, and **JavaScript**. Demonstrated ability to deliver secure **RESTful APIs** featuring **JWT authentication** and role-based access control (RBAC) for complex multi-user systems, including a three-role doctor appointment platform. Proficient in creating responsive front-end interfaces with **Bootstrap** and vanilla JavaScript, alongside managing relational databases such as **MySQL**. A quick learner with a solid foundation in **Git**, **Docker**, and deployment workflows, eager to contribute to a collaborative development team.

WORK EXPERIENCES

Project Intern (Full Stack Developer) | Internship — Jan 2026 - Jan 2026

Edunet Foundation / EY GDS — *On-site • Pune, India*

- **Delivered** a comprehensive **Doctor Appointment System** with roles for **Admin**, **Doctor**, and **Patient**, utilizing **Django**, **DRF**, and **MySQL**.
- **Secured** protected routes and API access using **JWT authentication (SimpleJWT)** and **RBAC permissions**.
- **Developed** and **tested REST APIs** and business logic for scheduling and managing the appointment lifecycle, resolving issues through iterative **Git commits**.

Technologies / Skills Used : *Django, DRF, MySQL, MongoDB, JavaScript, Python, GitHub*

EDUCATIONS

Trinity Academy of Engineering, Pune | Pune, India — Aug 2023 - Jul 2027

Bachelor of Engineering (B.E.) in Information Technology — *5th Sem SGPA : 7.57*

Affiliated with **SPPU**.

PROJECTS

MediStore — E-Pharmacy Web Application | Github — 2025 - Present

- Developed an **e-pharmacy application** featuring authentication, a product catalog with search and filters, cart functionality, checkout processes, and order tracking workflows.
- Implemented server-side validation and **CRUD** operations for core resources; enhanced error handling throughout the checkout steps.
- Established a prescription upload workflow and created admin modules, including a coupon system and analytics-style views, in accordance with project specifications.
- Integrated **Razorpay payment flow** and managed payment success, failure, and cancellation states to ensure a seamless checkout experience.

Technologies / Tools Used : *Django, DRF, MySQL, HTML, CSS, JavaScript (Vanilla), Razorpay*

MediCare — Doctor Appointment Booking System | Github — 2025 - Present

- Engineered an **appointment booking system** with secure workflows and dashboards for three roles: **Admin**, **Doctor**, and **Patient**.
- Delivered **REST APIs** for authentication, doctor listings, profile management, slot availability, and appointment scheduling.
- Facilitated appointment lifecycle management, including create, update, reschedule, and cancel operations, with robust validation.
- Modeled relational tables for **doctors**, **patients**, slots, bookings, and booking history, enhancing user experience through client-side validation and messaging.

Technologies / Tools Used : *Python, Django, DRF, MySQL, HTML, CSS, JavaScript (Vanilla), JWT (SimpleJWT)*

Developer Portfolio — 3D UI + GitHub Integration | Github — 2026 - Present

- **Developed** an interactive portfolio featuring **GitHub integration** to effectively showcase repositories and projects.
- **Enhanced** responsiveness and navigation through **JavaScript-driven UI interactions** across various device sizes.

Technologies / Tools Used : *HTML, CSS, JavaScript (Vanilla)*
