GitHub: <https://github.com/FlamingSlayer> | Portfolio: <https://flamingprotfolio.netlify.app/>

SUMMARY

Entry-Level Full Stack Developer with hands-on experience building web applications using **Python, Django, Django REST Framework (DRF), MySQL, HTML, CSS, JavaScript (ES6+), Bootstrap, Git/GitHub, and Docker**. Skilled in delivering **RESTful APIs**, applying **JWT authentication (DRF SimpleJWT)** and **role-based access control (RBAC)** for **3 roles (Admin/Doctor/Patient)**, and building responsive UIs with vanilla JavaScript. Portfolio hosted on **Netlify**; familiar with deployment workflows for **Render / Vercel / Netlify** (deployment planned for full-stack projects).

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML5, CSS3

Backend: Django, Django REST Framework (DRF), REST APIs, CRUD, Authentication/Authorization, JWT (SimpleJWT), RBAC, Validation, Error Handling

Frontend: Bootstrap, Responsive Web Design, DOM Manipulation, UI Interactions/Animations

Database: MySQL, SQL, Relational Database Design

Tools/DevOps: Git, GitHub, Docker

Integrations: Razorpay Payments, GitHub Integration, PWA-ready setup

PROJECTS

MediStore — E-Pharmacy Web Application

GitHub

Tech: Django, DRF, MySQL, HTML, CSS, JavaScript (Vanilla), Razorpay, PWA-ready

- Built an e-pharmacy application with authentication, product catalog (search/filters), cart, checkout, and order tracking workflows.
- Added server-side validation and CRUD for core resources; strengthened error handling across checkout steps.
- Created prescription upload workflow and admin modules (coupon system and analytics-style views) as per project scope.
- Integrated Razorpay payment flow and handled payment success/failure/cancel states for a reliable checkout experience.

MediCare — Doctor Appointment Booking System

GitHub

Tech: Python, Django, DRF, MySQL, HTML, CSS, JavaScript (Vanilla), JWT (SimpleJWT)

- Engineered an appointment booking system with protected workflows and dashboards for 3 roles (Admin/Doctor/Patient).
- Delivered REST APIs for authentication, doctor listing, profile management, slot availability, and appointment scheduling.
- Supported appointment lifecycle flows (create/update/reschedule/cancel) and status management with validation.
- Modeled relational tables for doctors, patients, slots, bookings, and booking history; improved UX via client-side validation and messaging.

Developer Portfolio — 3D UI + GitHub Integration

GitHub

Tech: HTML, CSS, JavaScript (Vanilla), GitHub Integration, Netlify

- Created an interactive portfolio with GitHub integration to showcase repositories and projects.
- Improved responsiveness and navigation with JavaScript-driven UI interactions across device sizes.

Calculator (UI)

GitHub

Tech: HTML, CSS

- Developed a responsive calculator interface using HTML5 and CSS3 with clean layout and styling.

EXPERIENCE

Web Development Intern — Cognifyz Technologies

Dec 2025 – Jan 2026

Pune, India | Intern ID: CTI/A1/C261373 | Certificate Date: 03 Jan 2026

- Built and improved responsive UI components using HTML, CSS, and JavaScript; applied DOM fundamentals and debugging during development.
- Strengthened form usability by adding client-side validation and UI refinements (layout fixes and interactive elements).

Project Intern (Full Stack Developer) — Edunet Foundation / EY GDS

Jan 2026 – Jan 2026

Pune, India

- Delivered a full-stack Doctor Appointment system with 3 roles (Admin/Doctor/Patient) using Django, DRF, and MySQL.
- Secured protected routes and API access using JWT authentication (SimpleJWT) and RBAC permissions.
- Built and tested REST APIs and business logic for scheduling and appointment lifecycle; fixed issues through iterative Git commits.

EDUCATION

Trinity Academy of Engineering, Pune (Affiliated to SPPU)

Expected Jul 2027

Bachelor of Engineering (B.E.) in Information Technology | Third Year

- CGPA: 7.5 (5th Semester)
- Relevant Coursework: Data Structures, DBMS, OOP, Web Development

CERTIFICATIONS

- IBM SkillsBuild / Codecademy — Learn JavaScript (30 hours) Completed: 16 Mar 2026
